

PERSTEMPO-MONTHLY, JULY 2003

**An authorized, unofficial information medium published monthly by
AR PERSCOM for PERSTEMPO professionals in CONUS**

LAST PERSTEMPO MONTHLY...

We informed members of the new Monthly readiness reports that will become mandatory. Stand-by! Until the PERSTEMPO Web Site comes back up, we have to put it on hold...info to come. We told you how to get your PERSTEMPO count through AKO and how to insure a creditable event.

MONTHLY READINESS REPORTS

Make sure you start to understand how your AHRI's work out there because Monthly Readiness Reviews from all of the MACOM's will be a requirement with the coming of the new Web-Site. The report is in conjunction with the Army Chief of Staff IG recommendation, and will be due at the beginning of each month. Stand By.

PERSTEMPO IS NOW ON AKO

The capability for individual soldiers to view their PERSTEMPO count has been added to AKO on 3 December 2002.

To access AKO PERSTEMPO counts, all you have to do is sign in to AKO, at the screen, select "**self Service**" then select "**my personnel**" and you're in!

PERSTEMPO TESTING

We're back in business!!! The new PERSTEMPO Web-Site Version 3.3 is now in it's testing phase. The testing will be conducted from 19 June to 18 July. Testing will ensure that data from AORS, RLAS and AFCOS (NGB), can be integrated and processed by DMDC.

PERSTEMPO WEB-SITE ALIVE

At the completion of testing Version 3.3, the new PERSTEMPO web-site will allow users access no later than 1 August 2003. Some of the modifications will result in minor changes, but the changes will continue to assure that soldiers at the lowest level can understand how to view records and utilize the system.

HAVE YOU BEEN TRACKING?

It is important to remember that all information pertaining to on going deployments and creditable events were to be properly tracked and recorded. This, even with the web-site in-operable. The reason is because all info will be put back into the web-site when the system comes back up. So, all units...get your information in order to make using the new site as easy as starting up where you left off.

INTEGRITY OF PERSTEMPO

The integrity of a unit's AHRS PERSTEMPO database information must be protected. Immediately report the departure of all account holders to your unit's User Administrator so that the departing individual's account can be inactivated.
